GRAN TURISMO 3

PS2

After winning a series of racers you get rewarded with a new car picked randomly from a choice of four. Usually you end up with the rubbish one that's worth \$4000 and not the beast worth \$250,000. You don't have to put up with this any longer.

● Start a series race. Now come first in all of the races. Just make sure you save before starting the final course.

● Start the final race and quit out. As you already had enough points to win the series you still get the prize.

● If you are rewarded with the booby prize car just re-load your last save and quit out again. Repeat this until you get the car you wanted.

METAL GEAR SOLID 2 SONS OF LIBERTY

PS2

By now most of you will have beaten the game several times, in which case you will have realised that Metal Gear Solid 2 Sons Of Liberty is in fact not a stealth 'em up but a perv 'em up. Hideo Kojima is a games director with a tendency towards pornography. Disagree, do you? Well, let's look at the evidence.

- The game is full of images of tasty totty. Go inside a locker in the Tanker, press R1 and Snake will kiss the girl posters

- These same posters can be used to distract guards. You can also toss them a porn mag, which they will happily stare at while you sneak past.

- When you reach Hold 2, Snake can play with the projectors until pictures of Japanese models appear. Mmm.

- In the Computer Room of Shell-1 Core, one of the guards is busy looking at scantily-clad women on the net.

- When Raiden himself gets naked, a video of girl will start to play. She laughs at what Raiden is covering with his hands.

- The second time you play through the Tanker all the marines in Hold 3 will be without trousers.

- This game is also dirty. Where there are seagulls, there's poo. Raiden can slip in the muck. Why have details like this?

- When Raiden is not slipping about in muck he can get peed on

by a guard in strut L Perimeter. Golden shower, anyone?

- When Raiden discovers Emma she wets herself. Talk to certain hostages and they wet themselves.

METAL GEAR SOLID 2 SUBSTANCE

XBOX/PS2/PC

Nearly every guard in the main game has a dog tag that you can get (and don't forget the bosses). To get all the tags you will need to finish the game on each difficulty.

Some guards will need to be shot in the leg with either the SOCOM or USP first. If you've put a guard to sleep, you can wake them up by either using the Coolant Spray or by picking them up and dropping them a lot.

In the Tanker with Snake get 30 tags for an Infinite ammo bandanna and 60 tags for Stealth Camo then Start a new game to use them. In the Plant with Raiden get 80 for Infinite ammo wig, 120 for Stealth camo, 150 for Infinite grip wig and all for infinite oxygen wig. Here's how.

- Find a guard and wait until his back is turned. Sneak up behind him
- Go into first-person view and point your gun at the back of his

head. Snake/Raiden will shout, "Freeze".

● The guard will put his hands up. Keep the fire button held down, leave first person and hold the aim button.

● Run in front of the guard and re-enter first-person mode. Point your gun at his head or crotch.

● The guard will quake in fear and drop his dog tags. If the guard does not, shoot him in the leg first.
