## 12-FEATURE SALE

Snowmobiler to keep them warm outdoors

**15.99**

Feature-packed snowmobile suit for boys or girls. The nylon shell is polyurethane-coated for wind- and water-resistance; the nylon lining is quilted to two interlinings (a fluffy fibre one for warmth, and a polyester foam one for added insulation). Good looking too: racer stripes jazz up the pockets and sleeves; domes close the flapped patch pockets. And best of all, it machine washes, hangs to dry.   
**Colours:** order by number and name. 08-red; 48-navy.

†The *Sanitized*-treatment does for your clothes what deodorants do for you. Fights odour-causing bacteria. Helps stop odour build-up before it starts. Lets you cut back on costly dry cleaning and time consuming washes. Because of all this, it also helps fabrics last longer. That's why many Eaton items get the *Sanitized* treatment.

Buy a jacket now and put it on your Eaton Account. See page 194.

*Down—the natural insulator for winter warmth*

- Provides warmth without weight. It's even warmer than wool or synthetic fibres
- Actual field tests show down to be the warmest insulator for its weight
- Unlike synthetic fibres, down breathes. Allows body moisture to escape freely
- You stay comfortably warmer in the cold and cooler in warm temperatures
- Down is resilient. If compressed, it springs back to its original thickness
- Tubular constructed stitching on nylon jacket shell keeps down from sagging

**Mattress:** Steel Adjusto-Rest coils (512 in the 54" width) bear 20% more weight than ordinary coils by becoming firmer as more pressure is applied—providing firm sleeping comfort. Padded with buoyant white felt, insulated with sisal for a no-coil feel. Rayon cover is multi-needle quilted. Neatly tailored pre-built borders. Handles make turning mattress for better wear easy.

**Foundation.** Specifically designed to provide mattress with proper support. Built-in anti-sway stabilizers help prevent side sway and add extra firmness.

### Eaton's explains about sheets

**All cotton:** good quality that offers cool comfort. Usually a weave of 116-130 threads/sq. in. Takes hard wear and is easy on care, needs little or no ironing.

**Polyester/cotton:** cotton for cool comfort, polyester for extra durability. At 118-128 threads/sq. in., wears very well and comes from the dryer almost wrinkle-free.

**Percale:** the luxury sheet. 50% cotton for comfort, 50% polyester for longer wear. A fine smooth weave of 180 threads/sq. in. for greater strength and smoother texture.

Enjoy quiet, no-draught cooling for your entire home with a VIKING central air conditioner

Whole home air conditioning is yours at the turn of a dial! Outdoor unit utilizes your forced air central heating system to whisper no draught coolness into your home. Cooling unit fits into the duct of your furnace where air is cooled and dehumidified. Outdoor condensing section is placed unobtrusively in your garden. Exposed metal parts feature rust- and mar-resistant finish to protect through all the seasons. (Cover sold at right.)

Compressor is isolated in its own sound-insulated compartment ... lets you sleep in silent comfort. Low-profile, top air discharge lets you place unit anywhere; air flow can't harm shrubs and flowers. Units include factory-precharged, quick-connect refrigerant coupling for fast tubing installation. (30 feet of tubing included.) Control centre for temperature and humidity. Cat. nos. beginning with "F" shipped from factory. See p. 194.

## The Eaton Guarantee

### Goods satisfactory or money refunded

The best known and respected Guarantee in Canada. Merchandise that is not suitable due to colour, style, size, material or condition when received and has not been worn or used except to try on or test for suitability or condition, may be returned for exchange or refund within 10 days. Merchandise that has been worn or used to a greater extent will be accepted for repair, adjustment, exchange or refund only if it has proven to be defective in material, workmanship or performance under normal use for a reasonable period of time.

## Eaton's Specific Warranties

On many items Eaton's Specific Warranties provide detailed product protection against defects in material or workmanship for a specified period. Where they apply you will find Eaton's Specific Warranties mentioned in our catalogue or accompanying the merchandise.

## Regular and sale prices

It is our aim to make our pricing practices as clear as possible and to give you information about the values being offered. The following are explanations of price terms used in this catalogue.

**Eaton Regular** is the catalogue selling price of an item for the life of this book.

**Eaton Price** identifies a sale price for those catalogue items which Eaton's believes to be a better value than similar items generally available. Every effort is made to make these values as valid as possible. They do not take into account local pricing situations of like or similar items in all communities.

**Comparative Prices**—Eaton Regular, when used with Eaton Price to form a comparative price, refers to the price at which the identical item was offered in an Eaton's catalogue within the preceding 12 months in your geographic zone.

## Small Order Handling Charge

A Small Order Handling Charge of 50¢ will be applied to all orders with a total merchandise value of less than \$5.00. In certain provinces we are required to compute sales tax on the 50¢. To avoid this charge we suggest you combine all your small orders into one.

**Note:** Items with F or VF at the beginning of the catalogue number are factory shipped. Allow extra time for delivery.

## Open an Eaton Account

You can apply for an Eaton Account in person, by mail, or by phone. Simply contact your nearest Eaton's Catalogue Sales Outlet or Store. Our courteous staff will be happy to assist you.
