Sears Price Match Guarantee

We'll match any competitor's advertised price for identical merchandise offered in Sears catalogues and on www.sears.ca within 30 days of purchase.

For Children's Apparel and Footwear, Nursery Products or Juvenile products, we'll match any competitor's advertised price for identical merchandise offered in Sears catalogues and on sears.ca within 30 days of purchase, or 90 days on purchases made with your Sears Financial™ Credit Card.

We reserve the right to verify that the competitor is an authorized dealer located in Canada, that the advertisement is correct, and that the merchandise is identical (same brand, manufacturer and model name/number), and is in-stock at the competitor's local store. The competitor's offer must be in effect at the time of the Price Match request and the advertisement must pertain to the same geographic area.

Price Match Guarantee for Sears catalogue and website purchases does not include prices in Sears retail stores, Sears Home/Decor stores, Dealer stores, Outlet/Liquidation stores, Sears Outlet Site or other Sears website-exclusive advertised prices. Price Match Guarantee does not apply to Sears HomeCentral* installed products and services or licensed departments. Excludes competitor club, co-op or wholesale purchases, limited quantity offers, clearance, after-rebate or coupon discounted prices, auction website prices, discounts for 'cash' purchases, and damaged, reconditioned, shop-worn, floor model or other items that are not new and first quality.

Offer applies to the purchase price of the merchandise only, and does not apply to add-on related services such as delivery, installation, maintenance agreements, special credit or financing terms.

This program may be amended or discontinued at any time without notice.

To request a Price Match: Price Match requests cannot be made at time of ordering; requests must be made in person. At pick-up, or within 30 days of pick-up or home delivery, bring in the local competitor's current print advertisement showing a lower price for the identical national-brand item, and your original Sears sales receipt, to the nearest Sears catalogue location. Canadian website prices as offered by comparable competitors will be honoured when accompanied by a printout of the current website advertisement. If your request qualifies, you will be refunded the difference in price.

For C.O.D. orders (where accepted), cash will be refunded or a cheque will be mailed to your home address; for account purchases the refund will be handled by a credit to the account used (credit may appear on the next statement that follows the statement showing the item purchase).

A Word About Our Catalogue Advertising:

About Prices and Savings: Unless otherwise stated, all price comparisons refer to Sears catalogue prices offered nationally in Canada and are in Canadian dollars. For many savings offers, Sears regular price will take effect after the sale. "No Lower Price This Season" and similar statements refer to Sears catalogue prices and do not apply to clearance prices.
No matter which Sears catalogue you order from, you'll automatically be charged the lowest current Sears catalogue price, excluding Clearance and Overstocks catalogues. Prices indicated may go down, but will not go up for the length of this catalogue unless due to unforeseen circumstances beyond Sears control. Customers affected by a price increase or error will be advised of the correct price prior to completion of the purchase. Prices in this catalogue are subject to change and do not include installation or home delivery. A minimum of $3.95 shipping fee (non-refundable) will apply to most orders. Higher shipping fees may apply to certain products and Sears locations. You will be advised of these charges when you place your order.

Find a Mistake? Sears reserves the right to correct pricing and/or advertising errors, and customers who are affected will be advised of the correction at time of ordering (correction notices may also be posted on sears.ca). Products, prices and promotions may only be available for this catalogue.

About Dimensions: Unless otherwise stated, all sizes quoted in this catalogue are approximate.

About Availability: Some items in this catalogue may be offered for sale elsewhere at Sears or at Sears licensees, but prices and offers may vary. When an item is out of stock, we will tell you if and when the merchandise will be available, and then hold your order. Our real-time inventory system sometimes is not able to keep up with demand, and we may have to cancel certain orders after they are accepted. In some cases, we may offer you a substitution of equal or better value.

About Recycling: Together we can help to improve the sustainable use of natural resources. Please return your expired catalogues to any Sears Catalogue Order Desk or Catalogue Store or place in your recycling Blue Bin at home. Collected catalogues will be sent to a recycling facility where they will be reprocessed for use in various products.

About Your Privacy: A copy of our complete privacy policy is available on sears.ca. If you have not opted out of the use of your Personal Information for marketing purposes, we may use your contact information (including telephone number and email address) for the marketing (including telephone/email marketing and automated telephone messages) of additional goods, services and special offers that might be of interest to you from us, our affiliates, or our selected third party service providers/business partners. FLANNELS FOR A LONG WINTER'S NAP FROM 69.99

SHEET GLOSSARY

Combed cotton - Cotton fibres are combed, removing the short fibres that would stick out during the weaving process, leaving longer yarns and a softer fabric.

Cotton - Fluffy fibre that grows around the seed of the cotton plant and is woven into thread to make a soft, breathable fabric perfect for any season. Cotton is also durable and able to withstand repeat washings.

Cotton-polyester - A blended fabric of cotton and polyester. The addition of polyester to sheet fabrics makes them easy to care for.

Egyptian cotton - Grown alongside the Nile river, this high-quality cotton owes its superior durability, lustre and silky hand to its extra-long fibre staple.

Flannel - A woven fabric, usually of cotton, which has been brushed on both sides to give it a warm texture and cozy nap. Available in a variety of weights, it's measured in grams per square meter (GSM). The higher the GSM, the heavier and thicker the sheet.

Microfibre - This is a synthetic fibre known for its softness and durability.

Percale - A smooth, closely-woven fabric which can be constructed of either a polyester-cotton blend or 100% cotton. A quintessential sheet fabric, percale is known for its cool, crisp feel and is popular for its durability and ease of care.

Pima cotton - High-quality cotton with a long fibre staple similar to that of Egyptian cotton. The difference is geographical only. Pima is grown in the southwestern United States.

Sateen - A cotton fabric with a satin-like finish. The sateen weave has 4 threads over and 1 thread under which places more threads on the fabric surface, giving it a slight sheen and a luxurious, soft feel.

Thread count - The number of horizontal (weft) and vertical (warp) threads per square inch. In general, the higher the thread count, the softer and more durable the sheet.

Yarn-dyed - The process of placing colour in the yarn or threads before weaving, resulting in rich, lasting colour that is literally infused in every thread.

600Hz SUBFIELD MOTION

Our plasma TVs make fast-moving action look more life-like and natural. Motion is never choppy or distorted. By flashing a single image up to 600 times a second, the 600Hz Subfield Motion technology displays movement that is smoother and more fluid. Contours are crisper and scrolling text is sharper. Your favourite action movies and sporting events are always super clear, and filled with rich, vivid detail.
